Thanks Shane. We are doing the same. ATSDR is looking into a fact sheet and engaging Poison Control Centers. I have asked Gary to talk to Capt. Paradis the FOSC to see if air monitoring is going to become a significant task so that we can up the FPN and ramp up START.

I was contacted by our Air Div folks this a.m. They had received a request from Sector Mobile for air monitoring support. Don't know why they didn't come thru us but I have a call in to Capt. Steve Poulin, Sector Commander. We have consulted with our ATSDR rep and are contacted ERT to get their tech input on any potential monitoring techniques. We don't anticipate there is anything detectable but we may need to show that to assure the public. We have also received odor complaints via NRC reports for MS/AL. I'll forward those to you as well.

I got the call from Capt. Hanzalik on it just before the NRT call. Recommend you get an assessment from Capt. Paradis on how likely air monitoring support is to become a major mission for EPA.

Yes, I briefly heard something about it last night and some discussions this morning. Trying to track it down. They are saying Port St Joe, FL.

Gary

Understand. Just got a call from Hanzalik asking for ATSDR assistance with public complaints about petroleum odors. Has USCG talked to you about that?

Warren,

You may be called upon to go to the BP command post in Houston tomorrow.
